Call for Tutorials

Proposals for Tutorials are invited in the following Tracks:

Track 1: Fundamentals and PHY   **Track 2: MAC and Cross-Layer Design**
Track 3: Mobile and Wireless Networks   **Track 4: Services, Applications, and Business**

Tutorials are intended to target an audience that is a mixture of industry and academic attendees. Tutorials are meant to be of didactic type, for non-experts, reviewing the state of the art on a broad topic, possibly paving the way to new research lines; in any case, they should not be focused towards detailed descriptions. The topic should be possibly of interest to a wide community.

Tutorial presenters are requested to send presentations at least two weeks prior to the conference.

Tutorials might extend for either a full or half day and will be held on Sept. 9, 2018.

Accepted Tutorials will be publicised through the conference website.

One tutorial speaker per tutorial can take advantage of a Full Registration under discount code 001. The day of the tutorial does not require payment of registration fee for any of the tutorial speakers.

Submission Guidelines

The proposal should be submitted to the Tutorials Co-Chairs, via email: pimrc2018-tutorials@comsoc.org. Proposals should be submitted via a specific template, available at the website http://pimrc2018.ieee-pimrc.org.

Key Dates

Tutorials proposal: April 20, 2018
Tutorials acceptance: May 25, 2018
