

W-A 13th IEEE International Workshop on Networking Issues in Multimedia Entertainment (NIME'18)

Time	EDAS Number	Title	Authors with Affiliations
9.00			
	1570463122	Improving Performances in League of Legends by Exploiting Inter-Operator Peering	Francesca Bassi (University of Milan, Italy); Dario Maggiorini (University of Milano, Italy); Marco Granato (University of Milan, Italy); Laura Anna Ripamonti (University of Milano, Italy); Davide Gadia (University of Milan, Italy)
	1570463056	User-driven and open innovation as app design tools for high school students	Silvia Mirri (University of Bologna, Italy); Catia Prandi (Madeira Interactive Technologies Institute & ARDITI, Portugal); Nelda Parisini, Mauro Amico, Michele Bracuto and Paola Salomoni (University of Bologna, Italy)
	1570459737	QoE-driven and Network-assisted Naked-eye 3D Adaptive Video Streaming over Wireless Network	Yidi Wang (Beijing University of Posts and Telecommunications, P.R. China); Yitong Liu (Beijing University of Post and Telecommunications, P.R. China); Hongwen Yang (Beijing University of Posts and Telecommunications, P.R. China); Gang Li, Yami Chen and Zhiming Liu (China Mobile Research Institute, P.R. China)
	1570463153	Exploiting Immersive Virtual Reality for Fashion Gamification	Lorenzo Donatiello and Gustavo Marfia (Università di Bologna, Italy); Elena Morotti and Sonia Di Vaio (University of Bologna, Italy)
10.30 - 11.00: coffee			
	1570463181	Entertainment for Serious Purposes: Customization of the Gamification Process	Marco Furini (University of Modena and Reggio Emilia, Italy); Silvia Mirri (University of Bologna, Italy); Manuela Montanero (University of Modena and Reggio Emilia, Italy)
	1570462641	Some Reflections on the Potential and Limitations of Deep Learning for Automated Music Generation	Luca Casini (University of Bologna, Italy); Gustavo Marfia (Università di Bologna, Italy); Marco Rocchetti (University of Bologna, Italy)
	1570463357	Are E-mails Files Reliable Evidences?	Alessandro Amoroso (University of Bologna, Italy)
	1570463248	Smart Wearable Sensors: Analysis of a Real Case Study	Armir Bujari, Ombretta Gaggi, Claudio E. Palazzi and Giacomo Quadrio (University of Padua, Italy)
12.30 - 14.00: lunch			
	1570463391	Semantic Content Representation to Meet the Challenges of Video Analysis in Multimedia Entertainment	Antonella Carbonaro and Roberto Reda (University of Bologna, Italy)
	1570463217	Learning about Fashion exploiting the Big Multimedia Data	Alessia Angeli and Elena Loli Piccolomini (University of Bologna, Italy); Gustavo Marfia (Università di Bologna, Italy)
	1570463305	Joint User Association and Power Allocation for multimedia services in coded cache-enabled HetNets	Fangfang Yin, Anyue Wang, Zhilong Zhang and Danpu Liu (Beijing University of Posts and Telecommunications, P.R. China)
	1570463369	Broadcasting Messages in the Internet of Vehicles	Armir Bujari, Claudio E. Palazzi and Alessio Vitella (University of Padua, Italy)
15.30 - 16.00: coffee			
17.30
